REMARKS/ARGUMENTS

Applicant requests entry of this preliminary amendment prior to examination of the present application. Specification and claims are amended for minor changes relating to the phrase "with base station," and minor errors in specification and claims relating to the term "monitoring timing" are corrected. Applicant notes "monitor timing" is well supported in the original specification. For example, the original specification discloses the monitor time for cdma2000 1x system and the 1xEVDO system may be 5.12 seconds. (*See, Specification; Page 11, lines 8-10*). It is believed no new matter is included in the present submission.

In view of the foregoing, it is respectfully submitted that the application is in condition for allowance.

If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call the undersigned attorney at the Los Angeles, California telephone number (213) 337-6810 to discuss the steps necessary for placing the application in condition for allowance.

If there are any fees due in connection with the filing of this response, please charge the fees to our Deposit Account No. 50-1314.

Respectfully submitted,

HOGAN & HARTSON L.L.P.
